

Back-end Developer

We're looking for a Back-end champ, who is fond of spectacular web applications and can develop them with high precision and efficiency. Someone who fits perfect with our team and strives for perfect code inside our coding rules. From creating reusable component templates to deleting every single line of unnecessary code, to stimulate a seamless and fast workflow and deliver outstanding quality.

- Outstanding knowledge of PHP and JS
- Knowledge of Laravel, VueJS or Node.js is an advantage
- Structured work style with high ambitions
- Passion for process optimization, efficiency and control
- Speaks Dutch and English (You also may speak Chinese)
- An (un) healthy need for weekly burgers and beer

Just a little bit about us here at OWOW...

OWOW is an award winning creative agency, based in Eindhoven. We proudly work for both international as national brands, varying from small startups to large corporates. All clients have one thing in common, and that's that they all operate in the field of innovation. New and cool things, brands and products, that's what we love! We have a strong focus on brand development (branding) & product development (both design and development of apps and platforms), and marketing (mainly online and growth hacking).

Besides projects for clients, we develop our own products. This is our own range of midi controllers, called the MIDIS (<http://owow.io>). These four instruments are being used by some of the biggest (live) artists and musicians worldwide.

In case you wondered, OWOW (pronounced "oow oow") stands for 'the Omnipresent World Of Wizkids'. Our office is located next to Eindhoven's central station, and we have great (un)healthy lunches and cozy Friday afternoon drinks waiting for you. We also party hardy from time to time with the team, but we can't go into any details over here. We are a dedicated team, full of wizkids with high ambitions (mainly world domination), and are always going for the next level.

We're working closely together with our amazing clients

Want to apply?

We take our work very seriously, more than ourselves and therefore have a lot of fun in our work. Do you have a good sense of humor (or bad - depending on who you ask) and share our passion for clean cool graphics? Send your resume, motivation and portfolio to: tom@owow.io
